Solid Surface Material

The shape of your ideas

Discover the boundless creativity offered by HIMACS, *High-Marble Art for Customer Satisfaction*. It is the solid surface material that epitomizes limitless possibilities. HIMACS is a delicate composition of acrylic, minerals, and natural pigments that come together to create a smooth, non-porous, thermoformable surface. HIMACS goes beyond outstanding design. It stands for quality, durability, and an innovative spark that inspires new ways of thinking, acting, and designing. Our collaborative ethos fosters deep, sustainable relationships with partners and ecosystems, grounded in the belief that together, we can bring about extraordinary outcomes.

About LX Hausys America

LX Hausys America, Inc. is a part of Korea-based LX Hausys Ltd., one of the world's leading providers of building and decorative materials, employing more than 4,300 people worldwide. **Headquartered in Atlanta, GA, LX Hausys America operates a state-of-the-art manufacturing facility in Adairsville, GA, where it produces both HIMACS Solid Surface and VIATERA Quartz Surface products.** Leveraging the industry's most advanced technology, the company designs beautiful and functional spaces with eco-friendly and practical products. LX Hausys America's business lines include surface materials, flooring, panels, and automotive components.

HIMACS Solid Surface

Features & Benefits

Unlimited Design Options
HIMACS can be thermoformed, cut, drilled, shaped, routed, and seamlessly joined to accommodate a wide range of applications. To meet specific color requirements, Design Lab program offers custom solid color matching.

Hygienic & Non-porous
HIMACS is non-porous and it is safe for food preparation. When a material or a seam is porous, food particle can be trapped in the surface material, becoming a breeding ground for bacteria and contamination.

Inconspicuous Seam
HIMACS allows for virtually seamless joins, creating a smooth, continuous surface without visible lines. This not only enhances the aesthetic appeal but also prevents dirt and moisture from accumulating in seams.

Easy Care & Maintenance
HIMACS requires no sealing or special cleaners. Routine cleaning with mild soap and water keeps the surface looking fresh. Its low-maintenance nature makes it ideal for high-traffic areas demanding hygiene and durability.

Repairable & Renewable
HIMACS can be professionally restored to its original condition, even after extended use. Deep scratches or surface damage can be repaired by certified professionals, helping extend the product's lifespan.

Greener Material Alternatives
The HIMACS Eden Plus Collection features colors with minimum 6% or 10% SCS-certified pre-consumer recycled content, helping reduce environmental impact without compromising quality or performance.

Dimensions

Thickness	Dimensions	Weight
1/2"	30" x 145" (760 mm x 3,680 mm)	126 lbs (57 kg)
3/8"*	30" x 145" (760 mm x 3,680 mm)	95 lbs (43 kg)
1/4"*	30" x 98" (760 mm x 2,490 mm)	45 lbs (20 kg)

The inch dimensions are nominal.
All colors are available in 1/2" thickness. Contact your LX Hausys Representative for other thickness(*) availability.

Certifications

Search for LX Hausys on NSF.org to see the listing of certified colors.
Only colors in the Eden Plus Collection contain SCS-certified pre-consumer recycled content.

HIMACS Applications

Practical and Versatile for Every Space

From kitchen and bathroom to commercial interiors, HIMACS offers a perfect balance of performance and design flexibility. Its non-porous surface resists stains and bacteria, ensuring a hygienic environment that is simple to clean. With its thermoformable properties and easy fabrication, HIMACS can be shaped into a wide range of designs, from smooth curves to seamless surfaces. It is also low-maintenance, making it a practical choice for long-lasting use in any setting.

With all these advantages, HIMACS can be applied in a wide variety of ways, including:

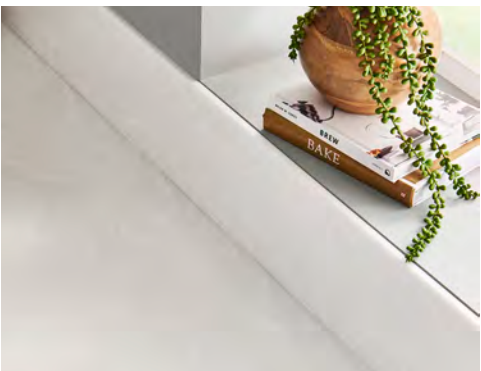

Residential Applications

- Kitchen**
- Countertops
 - Backsplashes
 - Waterfall islands
 - Integrated sinks

- Bathroom**
- Vanity tops
 - Shower walls & panels
 - Tub
 - Tub surrounds

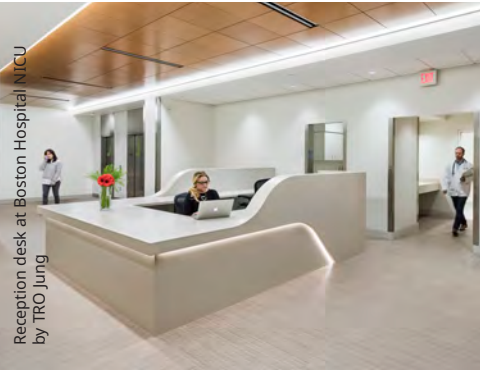

- Laundry / Utility Rooms**
- Laundry countertops
 - Folding stations
 - Sink surrounds

- Furniture**
- Custom tables
 - Desks and worktables
 - Accent furniture pieces

Commercial Applications

- Healthcare**
- Nurse stations
 - Laboratory counters
 - Patient room vanity tops
 - Wall panels
 - Window Sills

- Hospitality**
- Reception desks
 - Guestroom vanity tops
 - Bar tops
 - Furniture
 - Shower and changing room surfaces

- Education**
- Laboratory work surfaces
 - Classroom countertops
 - Library tables and study desks
 - Bench seating and cubbies
 - Food service counters

- Retail / Restaurant**
- Checkout counters
 - Product shelving
 - Signage and displays
 - Tray return counters
 - Table tops, partition tops

- Office / Public Building**
- Reception desks
 - Conference tables
 - Breakroom countertops
 - Wall accents
 - Restroom Partitions

Calacatta Collection

As a first for the industry, the Calacatta Collection brings the rare and gorgeous look of Italian Calacatta marble to solid surfaces. Its natural stone appearance illuminates the senses as gray veins branch out across an expansive white surface.

M821 | Calacatta Costa

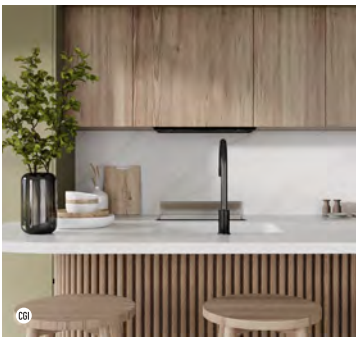

NEW 2025

Collection: Calacatta

Calacatta Costa captures the serene beauty of a seashore, where gentle ocean waves create smooth, random patterns in the white sand. Featuring a soft white base with gray veins of varying thicknesses, this design exudes a natural elegance. It is an excellent choice for kitchen backsplashes, islands, and bathroom spaces like vanity tops, shower walls, and tub surrounds, adding a sophisticated, coastal-inspired touch.

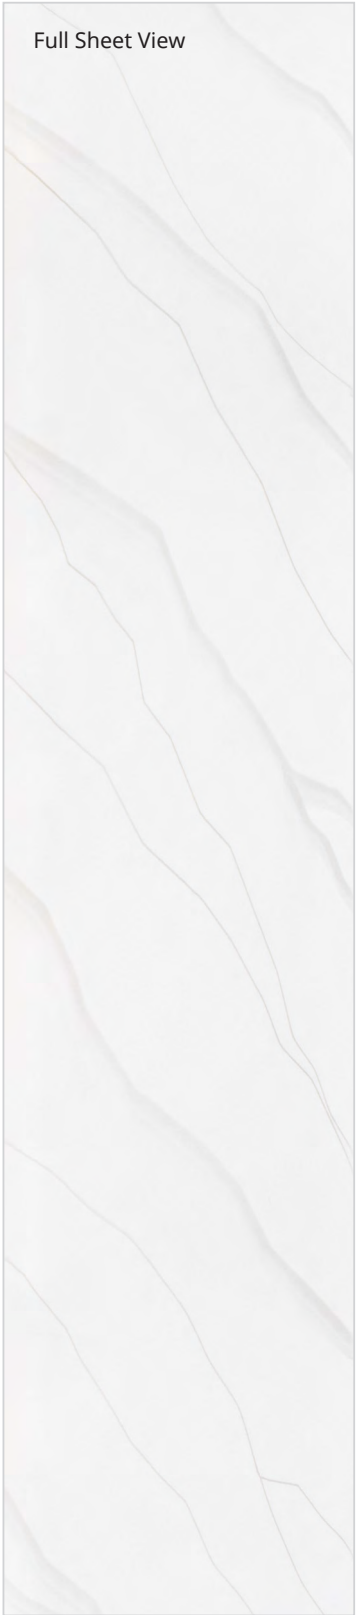

This color is made in USA with U.S. and imported parts.

Detail View

Full Sheet View

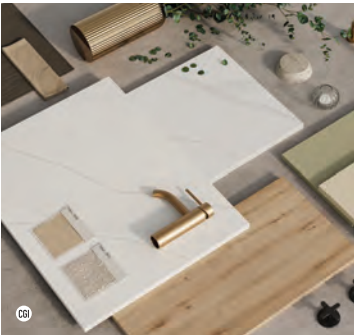

M822 | Calacatta Albero

NEW 2025

Collection: Calacatta

Calacatta Albero is inspired by the sunlit albero sand of Andalusia, reflecting its warm, golden charm. Featuring a creamy base with earthy-toned thin veins and subtle, sweeping wide veins, this design creates a natural, inviting aesthetic. Calacatta Albero looks best in spaces with abundant natural sunlight, enhancing the warmth and golden hues of its delicate veins.

 This color is made in USA with U.S. and imported parts.

M802 | Calacatta Fiore

Collection: Calacatta

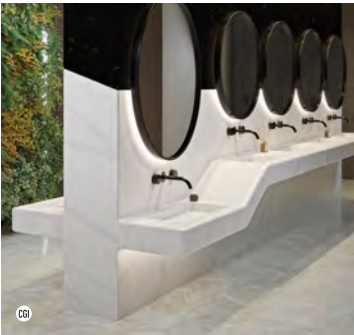

Calacatta Fiore features thin, elongated veins inspired by the clean, natural look of Calacatta marble. The slender gray veining complements the white base, creating a distinctive and refined pattern. It is ideal for large-scale applications such as large kitchen islands, backsplashes, statement walls, and other wide surfaces, where its graceful, flowing veining can truly stand out.

M801 | Calacatta Luna

Collection: Calacatta

Calacatta Luna delivers a unique organic aesthetic in solid surfaces. Its natural stone appearance captivates the senses as gray veins branch across an expansive white background. The distinctive contrasts and expressive veining flow together to create patterns of opulence. Inspired by the inherent beauty of natural stone, Calacatta Luna is an artistic statement of grandeur for interior spaces.

Detail View

Full Sheet View

M803 | Calacatta Ramo

Collection: Calacatta

Calacatta Ramo draws from the allure of natural Calacatta marble, featuring warm brown veins spread across a white base to reveal a flowing, organic pattern. Ideal for wood-tone interiors and large-area installations such as art walls, its soft, honeyed hues and delicate nuances create a rhythmic essence in contemporary designs. Shifting gracefully between warm and neutral tones, Calacatta Ramo's color palette makes it a perfect choice for modern kitchens, bathrooms, and other living spaces.

Aurora Collection

The Aurora Collection, inspired by the Aurora Borealis, embodies a low-contrast, organic swirling movement throughout its designs. The collection’s trendy nuances are both futuristic and classic, available in a wide variety of color hues.

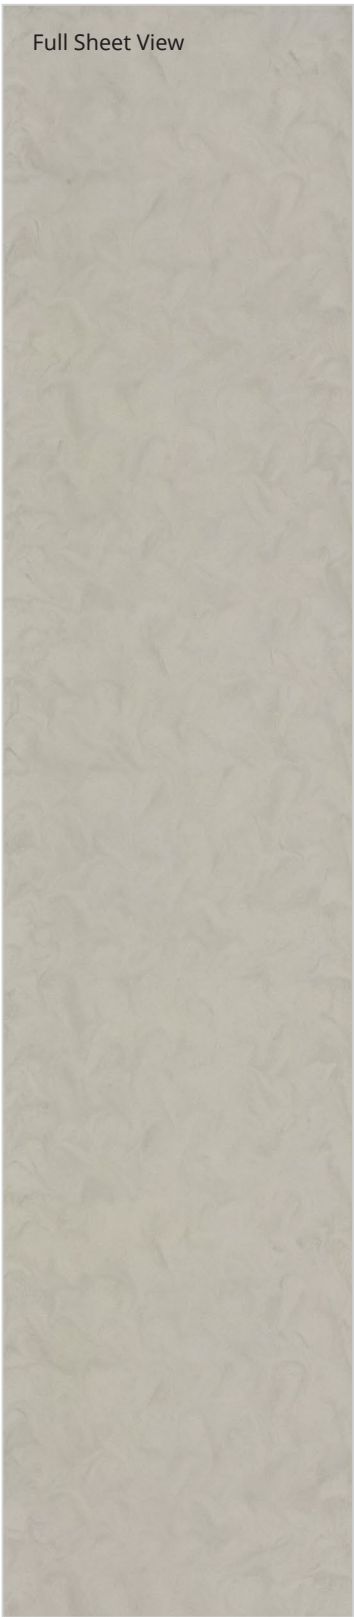

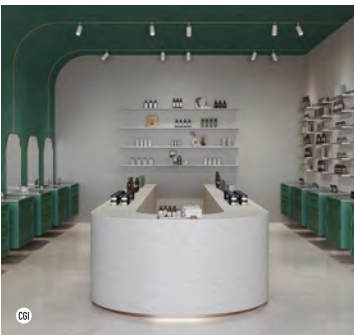

M631 | Aurora Clay Concrete

NEW 2025

Collection: Aurora

Aurora Clay Concrete is a rich, deep gray with warm undertones, seamlessly blending the strength of industrial texture with the warmth of natural earth. Inspired by ancient pottery and organic elements, this color reimagines timeless materials in a modern form. It balances the solid, structured feel of concrete with the comforting essence of clay, creating a surface that is both grounding and contemporary.

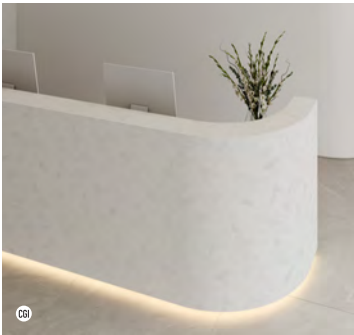

M631 | Aurora Dune Concrete

NEW 2025

Collection: Aurora

Aurora Dune Concrete is a warm beige-gray hue with a soft concrete-inspired base, delicately patterned like footprints on a sand dune. Its gentle, inviting mood is enhanced by warm undertones, creating a welcoming ambiance in any space. The pattern finds a perfect balance between noticeable and understated, offering just the right amount of movement for designs that need a touch of depth without overwhelming simplicity.

M701 | Aurora Ecrú

Collection: Aurora

Not to be mistaken for an unremarkable neutral, Aurora Ecrú is one of the softest shades to wake up to each day. Its base mellows the spirit, while hushed tonal veins drift gently across the surface, maintaining a clean, understated look. Ideal for contemporary spaces, this design adds a quiet sense of ease to modern living.

M702 | Aurora Frost

Collection: Aurora

In Aurora Frost, snowflakes never melt. Soft white veins drift across a pale base, their delicate movement recalling the quiet magic of the first snowfall of the season. Subtle and refined, this design offers a fresh, versatile presence that complements a range of contemporary interiors.

M603 | Pavia

Collection: Aurora

Pavia carries a clean, crisp base with a silky finish, accented by faint gray waves that drift in a slow, unhurried rhythm. Its semi-translucent quality allows light to pass through gently, creating a subtle glow when backlit. This calm yet distinctive design adds a quiet statement to interiors, enhancing the space without overwhelming it.

This color is made in USA with U.S. and imported parts.

M617 | Aurora Blanc

Collection: Aurora

Aurora Blanc reflects the quiet beauty of white marble, with soft gray veining that drifts gently across a clean base. Clear particulates enhance the stone-like character of the surface, adding an authentic, natural touch. Its low-contrast design creates a calm, harmonious presence that works effortlessly in both modern and classic settings.

 This color is made in USA with U.S. and imported parts.

Detail View

Full Sheet View

M606 | Aurora Bianco

Collection: Aurora

With grace and easiness, white envelops its surroundings like a blanket of snow. The brightness radiated by this classic color creates an illusion of space, for an elevated sense of freedom. Swirls bedaub in light grays for subtle movement, intimating a surface delicate and fluffy.

 This color is made in USA with U.S. and imported parts.

Detail View

Full Sheet View

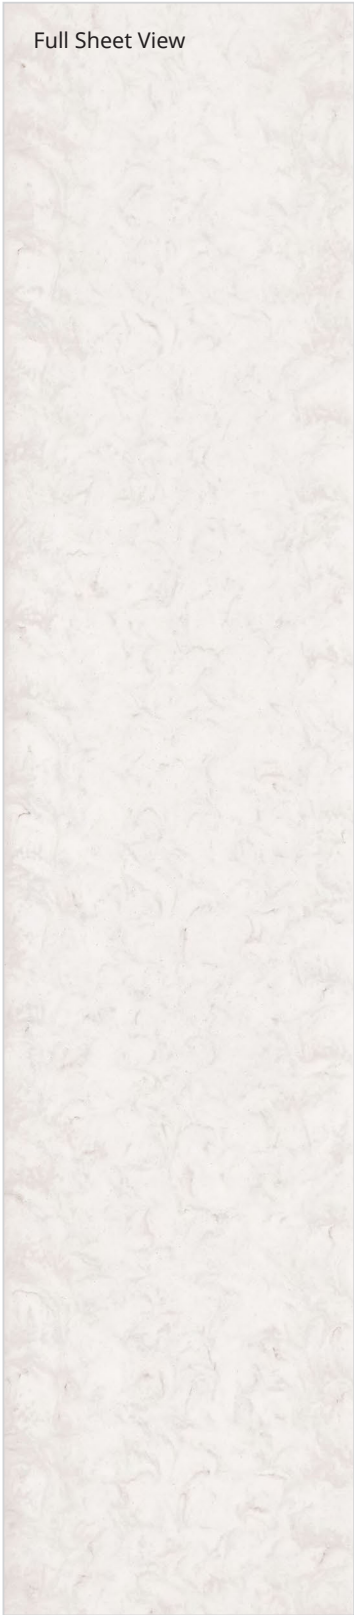

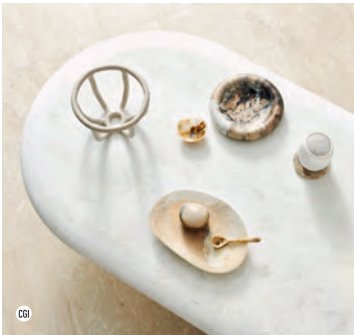

M607 | Aurora Cream

Collection: Aurora

Aurora Cream draws its warmth from the soft beauty of sunlit stone. A gentle white base is touched with hints of cream and taupe, expressed through subtle, flowing veining. Clear particulates add a delicate visual detail, while its warm, versatile tone pairs seamlessly with bright interiors as well as wood-tone and earth-tone cabinetry and flooring.

 This color is made in USA with U.S. and imported parts.

M622 | Aurora Warm Blanc

Collection: Aurora

Aurora Warm Blanc features a soft white base imbued with gentle warmth, touched by fine gray-beige veining that drifts in a quiet, understated flow. Its low-contrast pattern blends seamlessly with interiors built around a warm color scheme and complements modern, contemporary, and transitional styles alike.

 This color is made in USA with U.S. and imported parts.

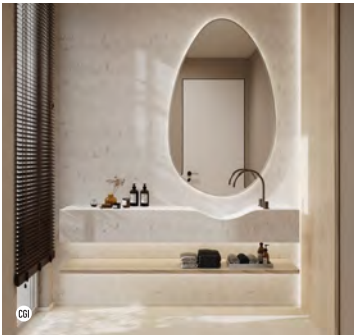

M610 | Aurora Almond

Collection: Aurora

Aurora Almond draws inspiration from the gentle warmth of freshly shelled almonds. A soft, warm white base is brushed with flowing warm gray patterns, while tiny tone-on-tone chips add a subtle, natural texture. The result is a surface that feels inviting and cozy, pairing beautifully with wood accents and creating a comfortable, lived-in atmosphere.

 This color is made in USA with U.S. and imported parts.

Detail View

Full Sheet View

M623 | Aurora Linen Cream

Collection: Aurora

Aurora Linen Cream features a soft cream-toned base, traced with subtle beige veining that expands in a natural flow. Bright yet cozy, the design pairs beautifully with natural materials and comes to life in spaces filled with daylight, making it an inviting choice for both commercial and residential interiors.

Detail View

Full Sheet View

M708 | Aurora Sable

Collection: Aurora

Aurora Sable features a creamy ivory base animated by irregular movement patterns in soft gray. Darker warm-toned chips are lightly dispersed across the surface, adding texture that recalls the depth and velvety softness associated with sable.

Detail View

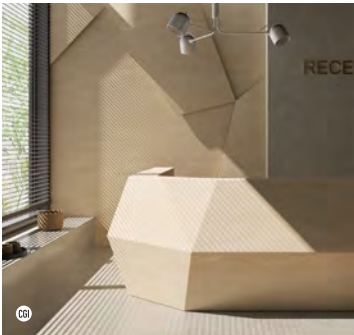

Full Sheet View

M627 | Aurora Butter Cream

Collection: Aurora

Aurora Butter Cream offers a soft beige backdrop, enriched with creamy light patterns and warmer gray accents. The design flows in a gentle, horizontal direction, blending random movement with a sense of harmony. Subtle texture adds visual interest without appearing rough, making this surface a warm and inviting choice for a variety of interiors.

Detail View

Full Sheet View

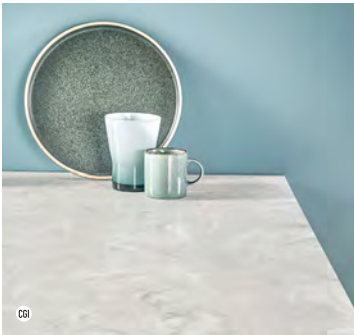

M602 | Andria

Collection: Aurora

Inspired by the charm of Andria, a historic city in southern Italy, this surface captures the beauty of its ancient stone architecture. Swirling white and dark patterns flow across a muted gray base, reminiscent of the weathered marble facades found throughout the city.

 This color is made in USA with U.S. and imported parts.

M619 | Aurora Drizzle

Collection: Aurora

Aurora Drizzle rests on a warm, pale gray base, gently layered with soft patterns in slightly darker and lighter tones. The design flows in an irregular, understated way, recalling the quiet moments after rain when sunlight begins to break through. Subtle tonal shifts and delicate texturing add a sense of movement, giving the surface a lively yet refined presence.

 This color is made in USA with U.S. and imported parts.

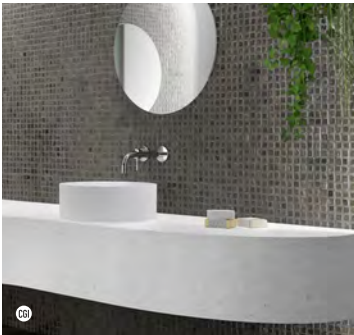

M601 | Torano

Collection: Aurora

Torano features an alabaster-white base swirled with soft ice-gray patterns, creating a gently textured surface. Small, understated chips are scattered throughout, adding a quiet layer of detail without interrupting the design. Its balanced look pairs well with stainless steel finishes, bringing a fresh, polished touch to any interior space.

 This color is made in USA with U.S. and imported parts.

Detail View

Full Sheet View

M608 | Aurora Gray

Collection: Aurora

Aurora Gray presents a warm, light gray base with tonal gray veining swirling gracefully across the surface. Subtle hints of sparkle and varied gray particulates bring visual texture and a touch of refinement. It pairs beautifully with interiors that balance calm sophistication with gentle vibrance.

 This color is made in USA with U.S. and imported parts.

Detail View

Full Sheet View

M611 | Aurora Cloud

Collection: Aurora

Aurora Cloud rests on a soft, pale gray base, animated by short, deep gray veining that scatters in an irregular, organic pattern. The movement recalls clouds gathering before rain, with areas of darker intensity that create a shadowed effect within the design. Small, scattered chips enhance the stone-like character of the surface, giving it a distinct and authentic presence.

 This color is made in USA with U.S. and imported parts.

M620 | Aurora Ocean Gray

Collection: Aurora

Aurora Ocean Gray evokes the calming effects of early morning waters on an autumn day. Inspired by the ocean's serene, subdued color palette, it features gentle waves of darker gray that add character, allowing this design to serve as either a tranquil backdrop or a soothing centerpiece.

 This color is made in USA with U.S. and imported parts.

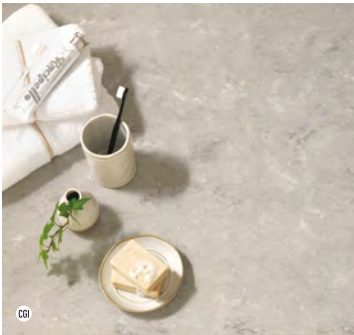

M621 | Aurora Dawn

Collection: Aurora

Aurora Dawn features a gray-taupe base layered with intersecting white and darker taupe patterns, creating a complex, free-flowing design across the slab. A mix of chips, from small light specks to larger brighter pieces and deeper-toned accents, adds varied texture while staying within the same tonal range. The result is a surface that blends visual richness with a cohesive, balanced look.

 This color is made in USA with U.S. and imported parts.

Detail View

Full Sheet View

M613 | Aurora Greige

Collection: Aurora

Aurora Greige features a soft gray base accented by flowing ivory and deeper gray patterns. Light and dark chips are scattered throughout, enhancing its authentic stone-like presence. Its versatile blend of tones and textures complements mixed-media designs and industrial-inspired spaces.

 This color is made in USA with U.S. and imported parts.

Detail View

Full Sheet View

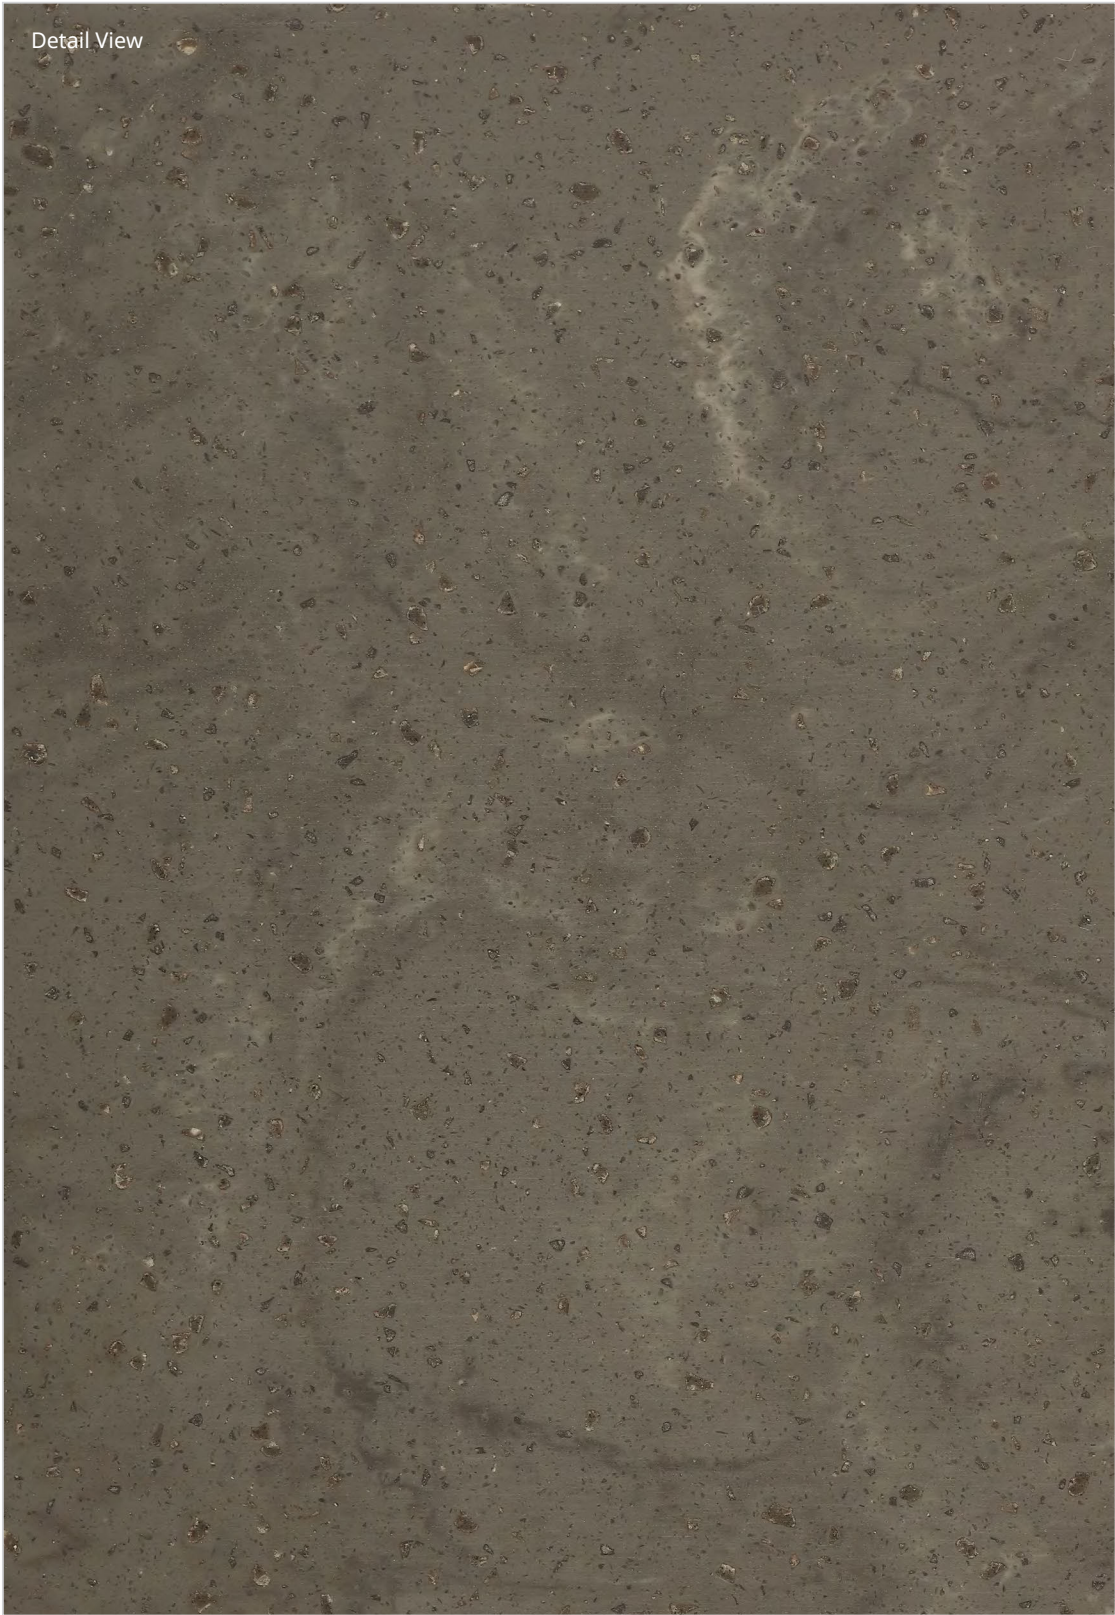

M614 | Aurora Umber

Collection: Aurora

Aurora Umber showcases a deep umber brown base accented by lighter and darker patterns that work in harmony across the surface. Dark particulates are scattered throughout, adding a touch of rugged texture to the design. Its grounded presence makes it an impactful choice for interiors seeking layered richness and character.

 This color is made in USA with U.S. and imported parts.

M625 | Aurora Terra

Collection: Aurora

Aurora Terra features layered brown veining flowing across a smoky charcoal base, creating a bold and dramatic contrast. With its rustic yet chic character and subtle wood-like appearance, this design adds a grounded statement to spaces, pairing effortlessly with natural materials and modern finishes.

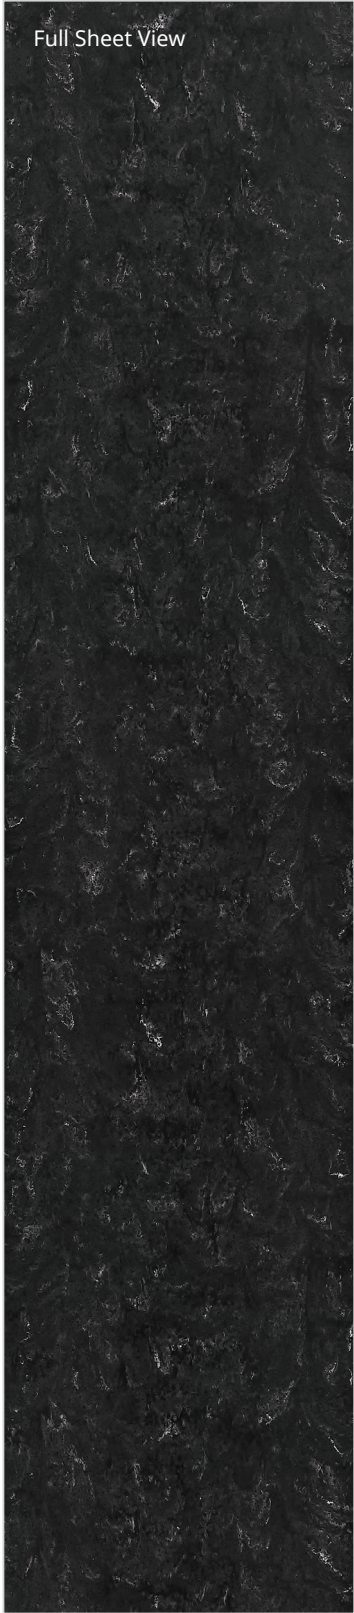

M605 | Sanremo

Collection: Aurora

Sanremo layers a deep black base with irregular white patterns that disperse in a mottled, organic fashion. Tone-on-tone black particulates are scattered across the surface, adding subtle texture and depth. The contrast of dark and light creates a cinematic mood, making this design a bold yet versatile statement for a variety of interior styles.

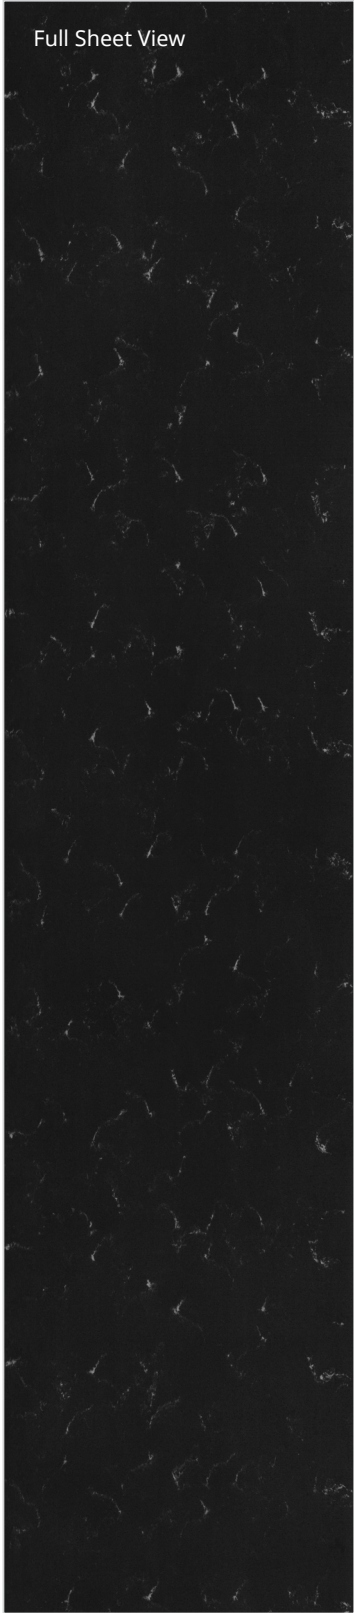

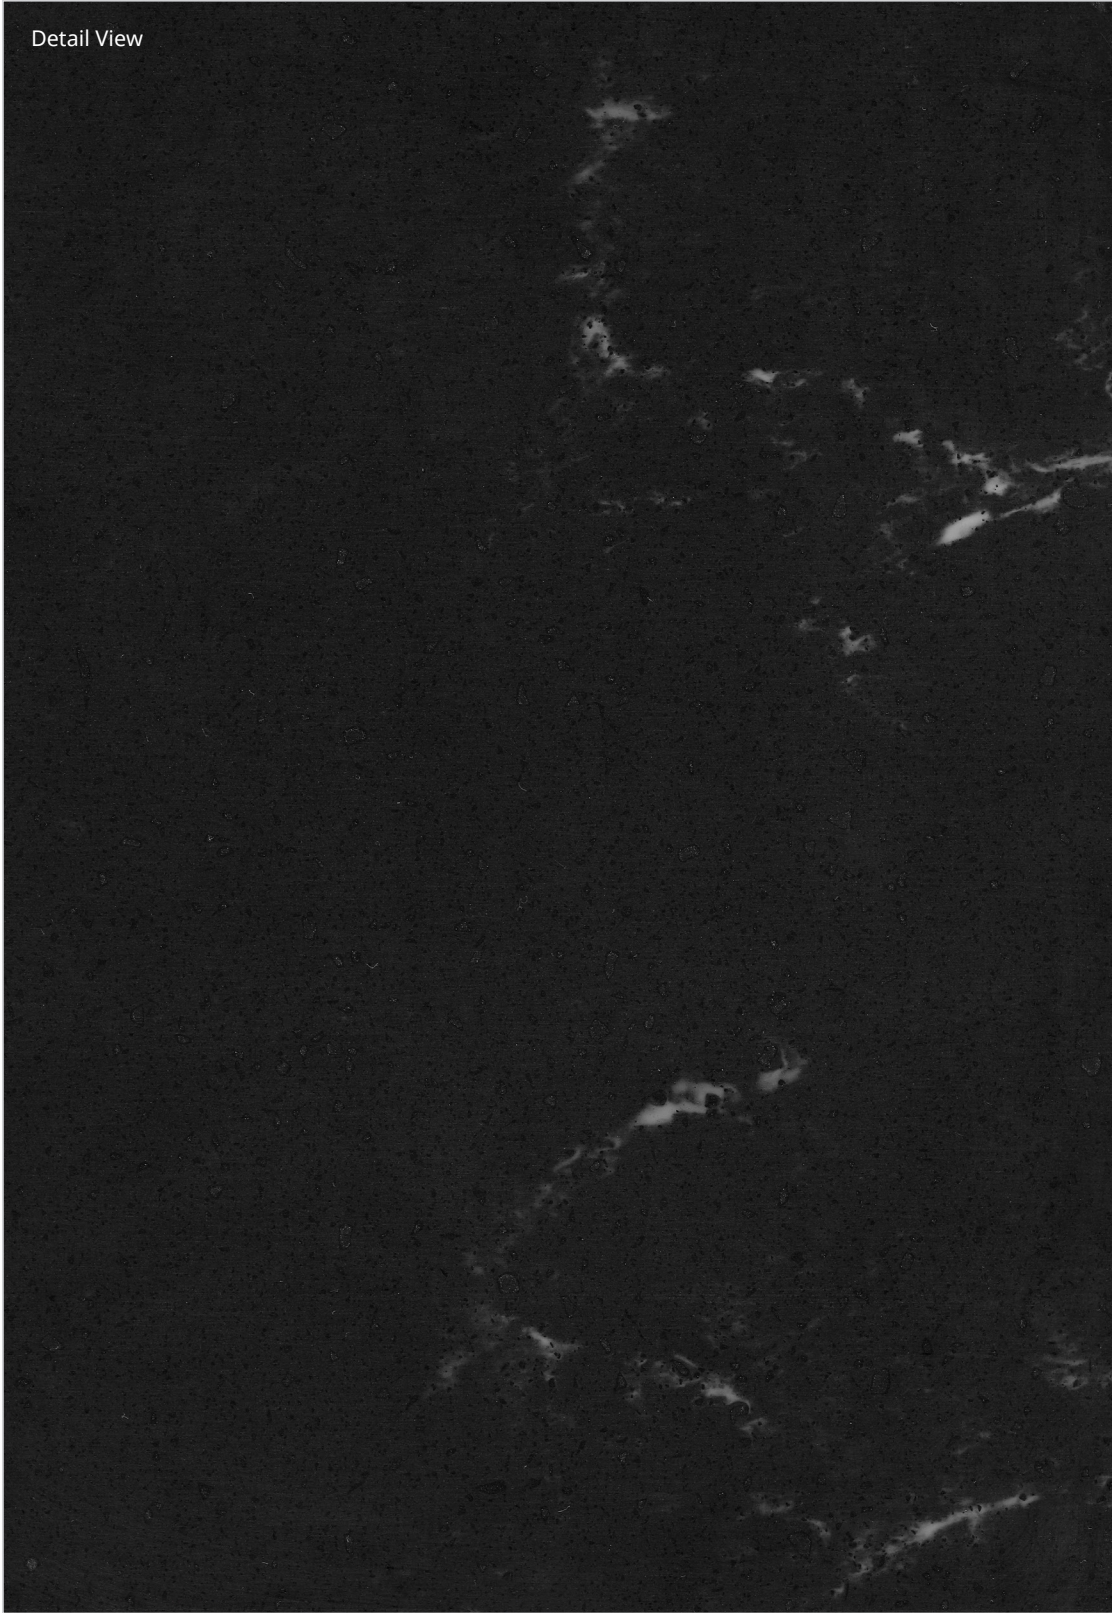

This color is made in USA with U.S. and imported parts.

M703 | Aurora Midnight

Collection: Aurora

Aurora Midnight takes inspiration from the stillness of a midnight sky. A deep, soft black base is energized by bold white veining, creating a striking contrast that recalls fleeting constellations. The balanced interplay of light and dark lends the surface both drama and versatility, making it a captivating choice for a range of interior styles.

Pietra Collection

With the natural flow of basalt, the Pietra Collection showcases dense, finely grained textures and whisper-like veining for an aesthetic that is distinctive and true to nature. Its rough, stony-looking texture accentuates the focal point of any interior space.

Z202 | Brina

Collection: Pietra

Brina's frosty allure offers up a new sense of coolness. Chameleon-like in appearance, Brina's light gray and soft white tones take center stage, depending on the setting. Rich in texture with intricate veining, its cool, sophisticated appearance brings a touch of luxury to modern, industrial and transitional spaces.

This color is made in USA with U.S. and imported parts.

Detail View

Full Sheet View

Z208 | Ethereal White

Collection: Pietra

Ethereal White’s soft off-white base is brought to life with linear tone-on-tone patterns that flow in gentle continuity. Its subtly weathered character introduces the tactile essence of natural stone, offering a bright yet grounded presence. True to the Pietra Collection, this surface delivers a quiet strength that complements modern, contemporary, and industrial spaces.

 This color is made in USA with U.S. and imported parts.

Z201 | Calda

Collection: Pietra

Calda’s ivory and soft white hues deliver warmth and a wealth of design versatility. Its long veins gently ebb and flow in both width and tonality, revealing a gentle wave-like pattern. Interior spaces become elevated as Calda’s neutral and stony look pairs perfectly with a wide spectrum of colors and materials.

 This color is made in USA with U.S. and imported parts.

Z207 | Ombra

Collection: Pietra

A sublime interpretation of shadowy hues and textures, Ombra’s rustic beauty elevates interior designs. Short-flow veins in two soft smoky grays harmoniously interplay with a warm brown tone as patterns and waves form an earthy-like texture reminiscent of volcanic rock. Expressing a new sense of modern flair, Ombra is an alluring, sophisticated statement for contemporary, modernistic and industrial spaces

 This color is made in USA with U.S. and imported parts.

Z203 | Notte

Collection: Pietra

Rugged and dark, Notte makes a dramatic statement for any interior. Subtly glimpsing through an urbane black surface, long, whisper-white veins expand and condense, creating light undertones and an unexpected warmth. Notte’s stony textured and weathered look is both bold and captivating.

 This color is made in USA with U.S. and imported parts.

Strato & Wood Collection

The Strato and Wood Collections share a linear patterning inspired by the dance of light and shadow in nature, designed to engage and delight the eye. Strato expresses this look in a clean, modern form, while Wood adds natural knot details to evoke the authenticity of real wood.

2003 | Strato Wind

Collection: Strato

As refreshing as an island breeze, subtle waves of light delicately float across this bright surface. Light as air and relaxing as a crisp autumn day, this spectrum of soothing silvery hues wafting and fluttering across a peaceful background, creates a calming ambiance for relaxation, making it the perfect foundation for an idyllic space.

This color is made in USA with U.S. and imported parts.

2006 | Strato Creme

Collection: Strato

Light and smooth, this velvety surface is just the thing to bring a touch of brightness to any space. Inspired by the radiant colors abundant on a sunny summer day, this pattern is infused with luscious, buttery ribbons that glisten against a subtle, fawn-toned background. This luminous surface can create an inviting space that complements any application, from traditional to contemporary.

 This color is made in USA with U.S. and imported parts.

Z101 | Dark Walnut

Collection: Wood

Traditional and elegant, dark wood tones infuse your surroundings with warmth and depth. Gentle woodgrain patterns are reminiscent of the natural world and the authenticity and love it bestows upon us. Its rich, stunning presence is a highlight in both traditional and contemporary interiors.

 This color is made in USA with U.S. and imported parts.

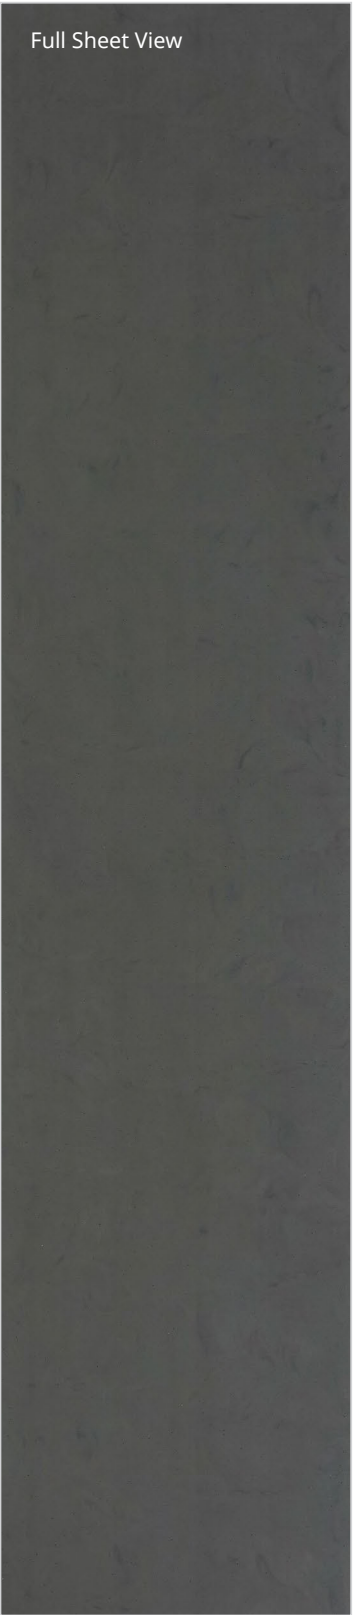

Concrete Collection

The Concrete Collection’s concrete-like design lends edgy appeal, bringing an urban sensibility to interiors. With a look that pairs seamlessly with industrial-inspired styles, these colors capture the raw character of concrete while delivering all the benefits of HIMACS.

M553 | Ebony Concrete

Collection: Concrete

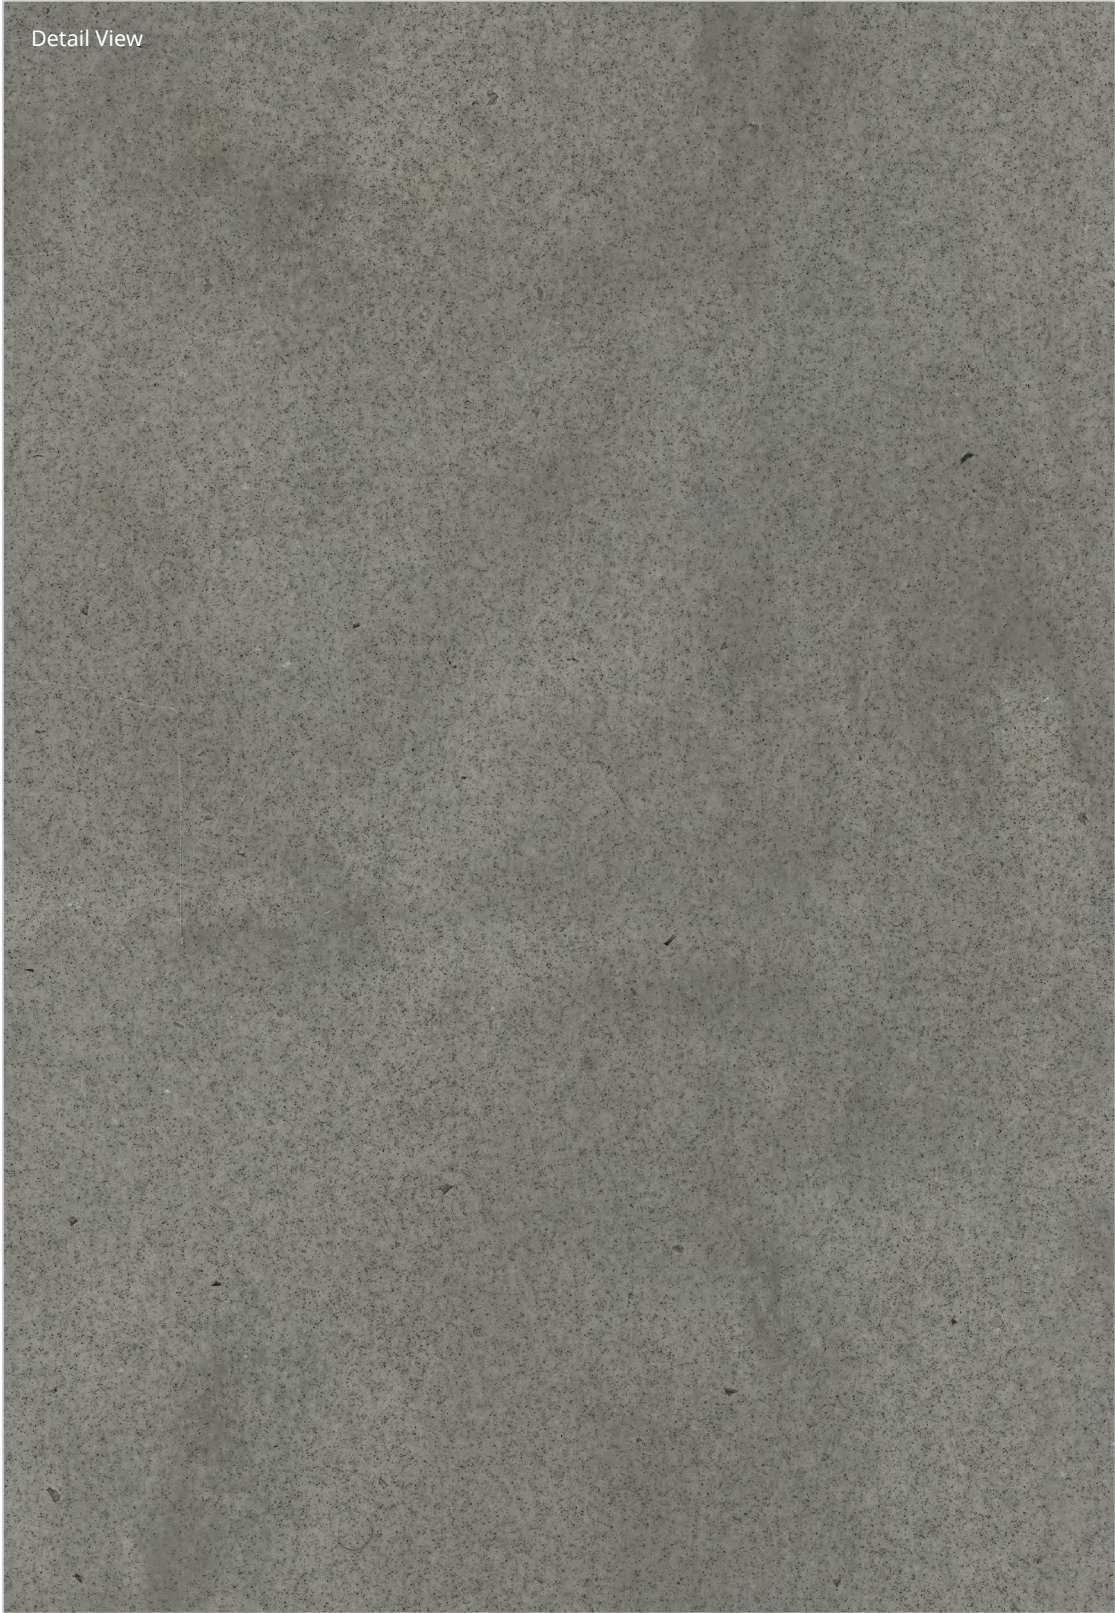

Rich, dark and lustrous, this slick, polished surface is as mesmerizing as the mystery of a midnight sky. This versatile color can complement any space, paired with metallics to deliver a futuristic illusion or working alongside natural wood to create a more classic look. Bringing beauty with an edge, this charcoal-inspired hue is also the perfect canvas for bold accents and imaginative pops of color.

M552 | Shadow Concrete

Collection: Concrete

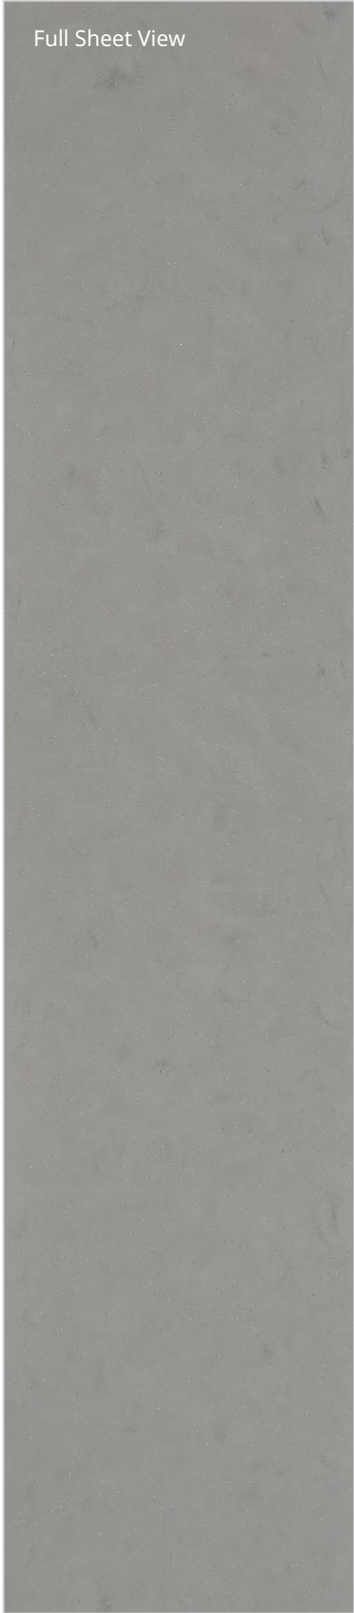

Evoking the interplay between radiant illumination and enigmatic opacity, this alluring surface lends an artistic edge to a room by creating an illusion of depth with complex, multi-colored silhouettes. This luminous and beguiling hue has the ability to contribute added dimension and clean, geometric lines for myriad applications. Conversely, it can lend an air of effortless coolness that makes for a truly sophisticated ambiance.

M551 | Chic Concrete

Collection: Concrete

Just like its name suggests, this cool, relaxed surface is the epitome of style and elegance. An aesthetically pleasing background, incorporating the flawless interplay of warm and cool gray tones, is dotted with black accents and streaks of white playfully shooting across it - like stars in a twilight sky. This understated surface can serve as the backdrop for a wide array of colors and textures, lending a fashion forward look to any space.

Marmo Collection

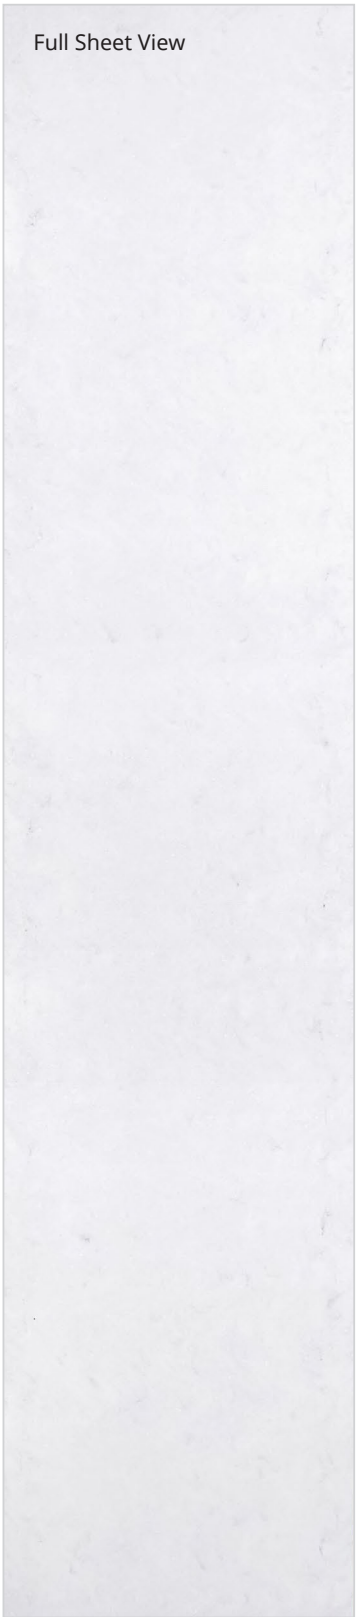

Marmo Collection introduced HIMACS' first movement-pattern designs, opening new possibilities in visual expression. Defined by its irregular, multi-directional patterns, Marmo captures the raw beauty of nature in a way that feels dynamic and ever-changing.

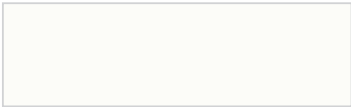

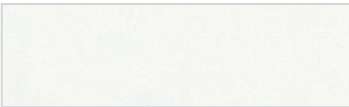

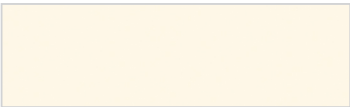

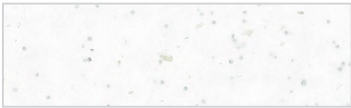

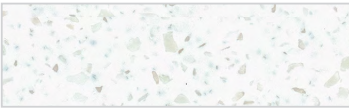

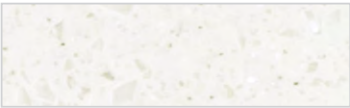

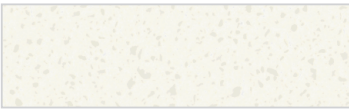

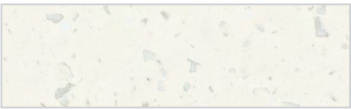

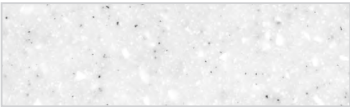

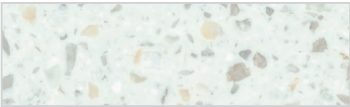

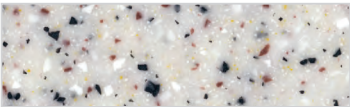

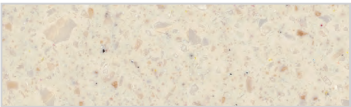

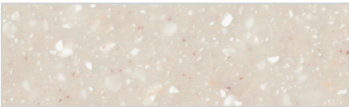

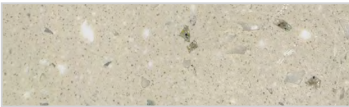

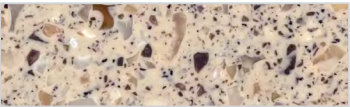

M501 | Edessa

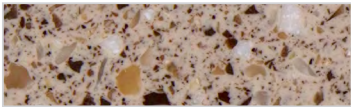

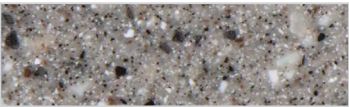

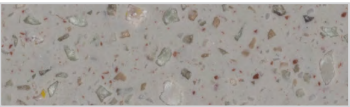

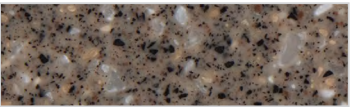

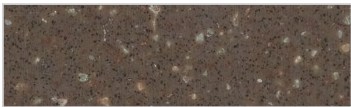

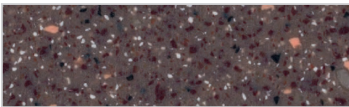

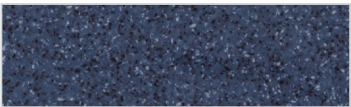

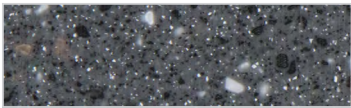

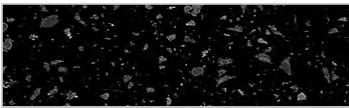

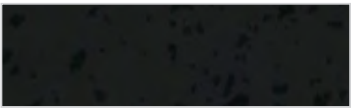

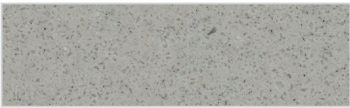

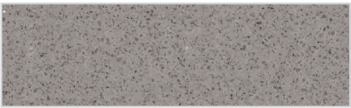

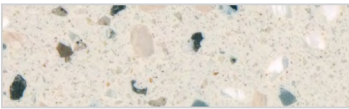

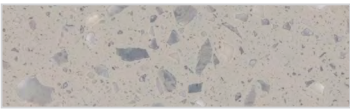

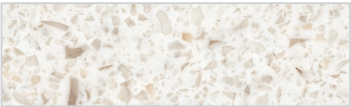

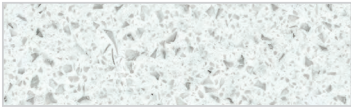

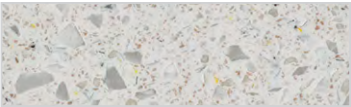

Collection: Marmo

Edessa features an off-white base accented with faint gray veining and delicately scattered chips in shades of white and gray. Its subtle shifts in tone and texture create a refined, marble-inspired presence that reveals more character the closer you look.

Explore sustainable design with the Eden Plus collection. With select colors containing a minimum of 6% or 10% SCS certified pre-consumer recycled content, it stands among the most environmentally conscious solid surface options available.

✧ Noted colors are translucent and provide a sensuous look when combined with light source.
🇺🇸 Noted colors are made in the USA with U.S. and imported parts.
⚠️ Darker colors tend to require more attention than lighter colors to maintain a uniform finish. Darker colors also require more maintenance to keep their “like new” appearance. Under typical use, they will show dirt, scratches, fingerprints, and watermarks more than lighter colors or patterns. Consult with your HIMACS representative for the best use of these colors.

Integrated Sink Solution with HIMACS

HIMACS offers a versatile range of sinks that can be seamlessly integrated with its solid surface materials, delivering a clean, continuous look with superior performance.

From residential sinks to those designed for a variety of commercial spaces, HIMACS provides options in multiple shapes and sizes to meet diverse design needs.

The collection also includes ADA-compliant models, ensuring accessibility and functionality in high-traffic environments.

Care & Maintenance

Featured Color: HIMACS Calacatta Ramo

General Care

Always use a trivet (or similar device) with soft feet under any heat-generating device such as a toaster oven or electric fry pan. Avoid contact with strong chemicals such as drain cleaners and oven cleaners - they can cause discoloration of HIMACS that may be permanent. In the event of accidental contact immediately wipe up the splash, clean the affected area, rinse thoroughly with clear water, and buff dry.

Routine Cleaning

HIMACS is non-porous so stains don't penetrate the surface. Everyday cleaning requires only a damp cloth (microfiber works well) and a mild detergent solution or all-purpose countertop cleaner, rinse with clear water and buff dry. This will also reduce possible "hard water" mineral buildup around faucets. Some suggested cleaners are shown below and ammonia-based cleaners also work well, however some window cleaners can leave a film residue that will build up over time.

Spills, Splashes, Spots

Some foods, beverages, and food preparation materials contain food color and dyes that may require a little more attention. If they aren't removed with the "routine care" steps, first remove any excess with a plastic putty knife. Then try one of the "Less Abrasive Cleaning Products" shown below. Apply the product directly to the affected area, rinse, and buff dry.

Unusual Stains

If further attention is needed any of the "More Abrasive Cleaning Products" shown below can be used. It's rare, but sometimes it may be necessary to use diluted (1:4) household bleach such as Clorox® applied directly to the affected area. Never let the bleach solution to sit more than two or three minutes before thoroughly rinsing and drying the area. It can be used on HIMACS sinks and vanity bowls too.

- Nail polish spills can be removed using nail polish remover by applying it to a cotton ball or swab, wipe (don't scrub) the affected area, wash, and rinse. Be careful with acetone-based removers - it's important to limit exposure to avoid discoloration.
- "Super Glue" (cyanoacrylate) spills should first be reduced using a plastic putty knife. The remaining residue can usually be removed following the steps for nail polish (it may require an acetone-based nail polish remover). Be sure to clean, rinse, and buff dry. If necessary, repeat the process.

Disinfecting

For information about specific products, visit the Environmental Protection Agency (EPA) website to review "List N", a list of EPA registered products, at <https://cfpub.epa.gov/wizards/disinfectants>.

Repairing Scratches

For removing superficial scratches, rub the area in a circular motion with a wet Scotch Brite® or similar buffing pad until the scratches are removed. Clean thoroughly with soap and water and let dry. Deeper scratches can often be removed by careful light sanding with 120-grit sandpaper followed by 220- and 320-grit. Next, buff the entire surface with a wet Scotch Brite® or similar pad. Use a circular motion to restore the overall finish level.

Severe Damage

Should your HIMACS sustain heat damage, a deep cut or gouge, fracture, crack or any other severe damage, a professional fabricator can usually repair your surface to look as good as the day it was installed.

VIATERA

Elevate every space

VIATERA, inspired by life’s moments and nature, redefines countertops as the canvas where beauty meets utility. More than just a high-quality engineered surface, VIATERA is an artful expression, always balancing lifestyle and utility. Like the enduring inspiration we draw from everyday life, VIATERA surfaces are not only practical but also designed to be lasting, reflecting the practicality and longevity that you desire in every space.

Porcelain Surface

Featured Color: TERACANTO Asgard (Countertop, Island)

TERACANTO

Luxury that lives

TERACANTO Porcelain Surface, inspired by the Earth’s natural beauty and harmonious music, sets a new standard in high-end design. Exquisite and high-performing, TERACANTO enriches room aesthetics with its luxurious looks and organic, Earth-based ingredients. Bold and forward-thinking, TERACANTO embodies courage and consistency, delivering strength and durability in an ultra-compact, lightweight material. Transform your spaces into distinguished environments with TERACANTO, where luxury truly lives.
